Alto 2

3-stage dual motor standing bench desk frame

HAFD233

Desktops sold separately

Features

Fast and smooth height adjustment - no juddering

Programmable control panel with 3 height memory presets, digital height display and reminder timer

Advanced anti-collision safety system senses change in the electrical current to the motor in the event of a collision. Additional sensor in the control box detects when the desk is not level. Either condition will cause the motor to stop and return 50mm in the opposite direction. Sensitivity is adjusted through the control panel.
Ultra quiet motors, lower than 50dB

Holeless square column legs

Easy to assemble

Available in black, white or grey

Frame	3 stage holeless square columns Optional integrated cable tray
Frame Finishes	Black / White
Height range	580-1230 mm

- LST EN ISO 354:2004
- LST EN ISO 11654:1998

TECHNICAL INFORMATION

Screen composition (42 mm)

- Frame made of 15x40 mm plywood;
- Central layer made of 10 mm polystyrene foam;
- Second layer is made of HR3030 10 mm foam from both sides;
- Third layer is made of VB2240 3 mm foam from both sides;
- Dowel pins combine two panels;
- Upholstered with 1 colour fabric or 2 colour fabric combination.

Height adjustment
(not available for Alto 2 2-desk benches)

- Screens are inserted into the fittings (154x124, H=74 mm);
- Pressed with screws to ensure stability;
- Fixed to the desktop.
- Screens can be raised / lowered to the preferred height;
- Only two screws must be tightened to ensure stability.
