Alto Bench

BENCH TABLES

With the increase of employers seeking a more diverse, intelligent approach to desk and agile working, Alto Bench was designed as an addition to the Bench family, offering a similar frame, but able to accommodate a larger worktop for extra users. The rounded tops are available in a choice of MFC, nanotech and veneer finishes and sit on a sturdy angular steel frame. An integral footrest adds strength and functionality.

Please refer to the price and specification guide for all available options.
